# HAND & SURFACE SANITIZER

Stay Healthy and germ-free all year!

#1 Trusted and Used  
In Hospitals ✓

Kills 99.9% Germs  
& Bacteria ✓

Antimicrobial  
Protection ✓

✓ #1 Hand Conditioning  
& Moisturizing Treatment

✓ Prolonged Protection  
(2-3hrs)

✓ Prevents Skin Drying  
& Cracking

## VERSATILE USES

Phones • Keyboards • Travel • Door Knobs • Planes  
• Trains • Buses • Cruise Ships • Schools • Gyms •  
Daycares • Senior Facilities • Offices  
• Hospitals • and more...

Manufactured For: GTECH Sport Inc.

GTech Clean, 11040 Bollinger Canyon Rd., Suite 1 San Ramon, CA 94582

**HAND SURFACE SANITIZER**

## **GLOBAL HEALTH CRISIS**

- ✓ FDA Approved
- ✓ Kills 99.9% Germs & Viruses
- ✓ Persistent Antimicrobial Protection 2-3 hours
- ✓ #1 Hand Sanitizer Moisturizing & Conditioning Formula. Stop Skin Cracking & Drying
- ✓ Non Drying Formula

**USE ANYTIME & ANYWHERE:**

Phone \* Keyboards \* Door Knobs \* Healthcare \* Travel \* Public Transportation  
School \* Cruise Ship \* Daycare \* Plane \* And Much More...

# AUTOMATIC TOUCHLESS REFILLABLE SANITIZER DISPENSER + UV LIGHT

#1 GLOBAL HAND SANITIZER AND DISPENSER  
[HTTPS://GTECHCLEAN.COM](https://gtechclean.com)

**Weight:**  
0.89lbs  
0.403kg

**Nozzle Types:**  
Foam • Spray • Gel

**Capacity: 34floz**  
Size: 6.22 \* 4.57 \* 11.26in

**Capacity: 1000ml**  
Size: 15.8 \* 11.6 \* 28.6cm

4 \* Screws and stoppers

# TOUCHLESS DISPENSER COMPONENTS

# BATTERY OR WALL POWERED

ACCEPTS 4PCS "C" SIZE BATTERIES (NOT INCLUDED) OR  
PLUGS INTO WALL POWER WITH ADD-ON WALL CHARGER

Plug in DC power supply

# EASY INSTALLATION

CAN BE MOUNTED WITH DOUBLE SIDED TAPE OR INCLUDED SCREWS. (DOUBLE SIDED TAPE NOT INCLUDED)

## **PERFECT FOR:**

Hospital  
Schools  
Hotels  
Restaurants  
Offices  
Health Clubs  
Day Care  
Industrial  
Commercial  
Restrooms  
Senior Centers  
1st Responders  
Entrances/Exits  
Medical Offices  
Airports/Cruise Ships  
Grocery Stores/Malls  
Lobbies/Cafeterias  
High Traffic Areas

Distance from table 40-50cm  
(15.7-19.7in)

## FLU ARMOUR VIP Kill Zone!!!

### Lists of common pathogens effective against

- Acinetobacter baumannii ATCC 19606
- Enterococcus faecalis Vancomycin Resistant (VRE) ATCC 51575
- **(E. Coli)** Escherichia coli ATCF 11229
- Escherichia coli O157:H7 ATCC 35150
- Klebsiella pneumoniae ATCC 4352
- Klebsiella pneumoniae NDM -1 positive CDC1000527 ("New Dehll" superstrain)
- Listeria monocytogenes ATCC 19117
- Pseudomonas aeruginosa ATCC 15442
- Salmonella enteritidis ATCC 4931
- Salmonella enterica serotype paratyphi B ATCF 8759
- Salmonella enterica serotype pullorum ATCC 19945
- Salmonella enterica serotype typhimurium ATCC23564
- Salmonella typhi ATCC6539
- Shigella dysenteriae ATCC 13313
- Shigella flexneri ATCC 12022
- Shigella sonnei ATCC 25931
- Staphylococcus aureus ATCC6538
- **(MRSA)** Staphylococcus aureus Community Associated Methicillin Resistant
- NARSA NRS 123, Genotype USA400
- Staphylococcus epidermidis ATCC 12228
- Streptococcus equi ssp. Equi ATCC 33398
- Vibrio cholera ATCC 11623
- Yersinia enterocolitica 5.5 X 10s ATCC 23715

# FLU ARMOUR SAFETY DATA SHEET

## Spray Hand Sanitizer

Effective against MRSA, and Community Associated CA-MRSANSF E3  
approved for Food Handlers

**Spray Hand Sanitizer is based on the active ingredient Benzalkonium Chloride in a unique non-drying, moisturizing and conditioning, Patented formulation. NSF Approved E3 for no-rinse hand sanitizing kills 99.9-99.9999% of most common-germs that may cause illness, including E. Coli and MRSA in just 15 seconds.**

### 1. Identification

Product identifier

Other means of identification

Product Code 873180

Recommended use Surfactant

Recommended restrictions None known.

Manufacturer/Importer/Supplier/Distributor information

Manufacturer

Company name Gtech Clean  
Address 11040 Bollinger Canyon Rd.  
San Ramon, CA 94582

Telephone 866-483-240

E-mail info@gtechclean.com

Emergency phone number 800-424-9300

CHEMTREC USA: Not classified.

Skin corrosion/irritation

### 2. Hazard(s) identification

Physical hazards

Health hazards Category 2

Serious eye damage/eye irritation Category 1

OSHA defined hazards Not classified.

Label elements

Signal word Danger

Hazard statement Causes skin irritation. Causes serious eye damage.

Precautionary statement

Prevention Wash thoroughly after handling. Wear protective gloves. Wear eye/face protection.

Response If skin irritation occurs: Get medical advice/attention. Take off contaminated clothing and wash before reuse.

Storage Store away from incompatible materials.

Disposal Dispose of contents/container in accordance with local/regional/national/international regulations.

Environmental hazards Hazardous to the aquatic environment, acute Category 2 hazard

Hazardous to the aquatic environment, long-term hazard Category 2

Hazard(s) not otherwise classified (HNOC) None known.

**Supplemental information** 0.54% of the mixture consists of component(s) of unknown acute hazards to the aquatic environment. 0.54% of the mixture consists of component(s) of unknown long-term hazards to the aquatic environment.

### 3. Composition/information on ingredients

Mixtures

| Chemical name                                              | Common name and synonyms | CAS number | %       |
|------------------------------------------------------------|--------------------------|------------|---------|
| 1-dodecanaminium,<br>n,n,n-trimethyl-, Chloride            |                          | 112-00-5   | 1 - < 3 |
| 1-hexadecanaminium,<br>n,n,n-trimethyl-, Chloride          |                          | 112-02-7   | 1 - < 3 |
| Alkyl Dimethyl Benzylammonium Chloride                     |                          | 8001-54-5  | 1 - < 3 |
| Ethanol, 2,2'-iminobis-, N-coco Alkyl<br>Derivs., N-oxides |                          | 61791-47-7 | 1 - < 3 |
| Other components below reportable levels                   |                          |            |         |

#### 4. First-aid measures

|                                                                        |                                                                                                                                                                                                           |
|------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Inhalation                                                             | Move to fresh air. Call a physician if symptoms develop or persist.                                                                                                                                       |
| Skin contact                                                           | Remove contaminated clothing. Wash with plenty of soap and water. If skin irritation occurs: Get medical advice/attention. Wash contaminated clothing before reuse.                                       |
| Eye contact                                                            | Immediately flush eyes with plenty of water for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical attention immediately.                               |
| Ingestion                                                              | Rinse mouth. Get medical attention if symptoms occur.                                                                                                                                                     |
| Most important symptoms/effects, acute and delayed                     | Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. Permanent eye damage including blindness could result. Skin irritation. May cause redness and pain. |
| Indication of immediate medical attention and special treatment needed | Provide general supportive measures and treat symptomatically. Keep victim under observation. Symptoms may be delayed.                                                                                    |
| General information                                                    | Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves.                                                                                          |

#### 5. Fire-fighting measures

|                                                               |                                                                                               |
|---------------------------------------------------------------|-----------------------------------------------------------------------------------------------|
| Suitable extinguishing media                                  | Water fog. Foam. Dry chemical powder. Carbon dioxide (CO <sub>2</sub> ).                      |
| Unsuitable extinguishing media                                | Do not use water jet as an extinguisher, as this will spread the fire.                        |
| Specific hazards arising from the chemical                    | During fire, gases hazardous to health may be formed.                                         |
| Special protective equipment and precautions for firefighters | Self-contained breathing apparatus and full protective clothing must be worn in case of fire. |
| Fire fighting equipment/instructions                          | Move containers from fire area if you can do so without risk.                                 |
| Specific methods                                              | Use standard firefighting procedures and consider the hazards of other involved materials.    |
| General fire hazards                                          | No unusual fire or explosion hazards noted.                                                   |

#### 6. Accidental release measures

|                                                                     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
|---------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Personal precautions, protective equipment and emergency procedures | Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Wear appropriate protective equipment and clothing during clean-up. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ensure adequate ventilation. Local authorities should be advised if significant spillages cannot be contained. For personal protection, see section 8 of the SOS.                                                                                       |
| Methods and materials for containment and cleaning up               | This product is miscible in water.<br><br>Large Spills: Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Cover with plastic sheet to prevent spreading. Absorb in vermiculite, dry sand or earth and place into containers. Prevent product from entering drains. Following product recovery, flush area with water.<br><br>Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination. |
| Environmental precautions                                           | Never return spills to original containers for re-use. For waste disposal, see section 13 of the SOS. Avoid release to the environment. Prevent further leakage or spillage if safe to do so. Avoid discharge into drains, water courses or onto the ground. Inform appropriate managerial or supervisory personnel of all environmental releases.                                                                                                                                                               |

## 7. Handling and storage

### Precautions for safe handling

Do not get this material in contact with eyes. Avoid contact with eyes, skin, and clothing. Provide adequate ventilation. Wear appropriate personal protective equipment. Avoid release to the environment. Observe good industrial hygiene practices.

### Conditions for safe storage, including any incompatibilities

Store in original tightly closed container. Store away from incompatible materials (see Section 10 of the SDS).

## 8. Exposure controls/personal protection

### Occupational exposure limits

No exposure limits noted for ingredient(s).

### Biological limit values

No biological exposure limits noted for the ingredient(s).

### Appropriate engineering controls

Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. Eye wash facilities and emergency shower must be available when handling this product.

### Individual protection measures, such as personal protective equipment

#### Eye/face protection

Wear safety glasses with side shields (or goggles) and a faceshield.

#### Skin protection

##### Hand protection

Wear appropriate chemical resistant gloves. Suitable gloves can be recommended by the glove supplier.

##### Other

Wear appropriate chemical resistant clothing.

#### Respiratory protection

In case of insufficient ventilation, wear suitable respiratory equipment.

#### Thermal hazards

Wear appropriate thermal protective clothing, when necessary.

### General hygiene considerations

Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.

## 9. Physical and chemical properties

### Appearance

Clear.

#### Physical state

Liquid.

#### Form

Liquid.

#### Color

Not available.

### Odor

Mild

### Odor threshold

Not available.

### pH

5-7

### Melting point/freezing point

Not available.

### Initial boiling point and boiling range

212 °F(100 °C)

### Flash point

> 199.4 °F (> 93.0 °C)

### Evaporation rate

Not available.

### Flammability (solid, gas)

Not applicable.

### Upper/lower flammability or explosive limits

#### Flammability limit - lower (%)

Not available.

#### Flammability limit - upper (%)

Not available.

#### Explosive limit - lower (%)

Not available.

#### Explosive limit - upper(%)

## 10. Stability and reactivity

|                                           |                                                                                               |
|-------------------------------------------|-----------------------------------------------------------------------------------------------|
| <b>Reactivity</b>                         | The product is stable and non-reactive under normal conditions of use, storage and transport. |
| <b>Chemical stability</b>                 | Material is stable under normal conditions.                                                   |
| <b>Possibility of hazardous reactions</b> | No dangerous reaction known under conditions of normal use.                                   |
| <b>Conditions to avoid</b>                | Avoid temperatures exceeding the flash point. Contact with incompatible materials.            |
| <b>Incompatible materials</b>             | Strong oxidizing agents.                                                                      |
| <b>Hazardous decomposition products</b>   | No hazardous decomposition products are known.                                                |

## 11. Toxicological information

### Information on likely routes of exposure

|                     |                                                    |
|---------------------|----------------------------------------------------|
| <b>Inhalation</b>   | No adverse effects due to inhalation are expected. |
| <b>Skin contact</b> | Causes skin irritation.                            |
| <b>Eye contact</b>  | Causes serious eye damage.                         |
| <b>Ingestion</b>    | Expected to be a low ingestion hazard.             |

**Symptoms related to the physical, chemical and toxicological characteristics** Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. Permanent eye damage including blindness could result. Skin irritation. May cause redness and pain.

### Information on toxicological effects

#### Acute toxicity

| Components                                                           | Species | Test Results      |
|----------------------------------------------------------------------|---------|-------------------|
| <b>1-dodecanaminium, n,n,n-trimethyl-, Chloride (CAS 112-00-5)</b>   |         |                   |
| <u><b>Acute</b></u>                                                  |         |                   |
| <b>Oral</b>                                                          |         |                   |
| LD50                                                                 | Rat     | 490 mg/kg         |
| <b>1-hexadecanaminium, n,n,n-trimethyl-, Chloride (CAS 112-02-7)</b> |         |                   |
| <u><b>Acute</b></u>                                                  |         |                   |
| <b>Dermal</b>                                                        |         |                   |
| LOSO                                                                 | Rabbit  | 1600 mg/kg        |
| <b>Oral</b>                                                          |         |                   |
| LD50                                                                 | Rat     | 699 mg/kg         |
| <b>Alkyl Dimethyl Benzylammonium Chloride (CAS 8001-54-5)</b>        |         |                   |
| <u><b>Acute</b></u>                                                  |         |                   |
| <b>Dermal</b>                                                        |         |                   |
| LOSO                                                                 |         | 3560 mg/kg        |
|                                                                      | Rat     | 704 - 100 mg/kg   |
| <b>Inhalation</b>                                                    |         |                   |
| LC50                                                                 | Rat     | 0.054 - 0.51 mg/l |
| <b>Oral</b>                                                          |         |                   |
| LD50                                                                 |         | 430 mg/kg         |
|                                                                      | Rat     | 525 mg/kg         |

• Estimates for product may be based on additional component data not shown.

**Skin corrosion/irritation** Causes skin irritation.

**Serious eye damage/eye irritation**

Causes serious eye damage.

**Respiratory or skin sensitization****Respiratory sensitization**

Not a respiratory sensitizer.

**Skin sensitization**

This product is not expected to cause skin sensitization.

**Germ cell mutagenicity**

No data available to indicate product or any components present at greater than 0.1% are mutagenic or genotoxic.

**Carcinogenicity**

This product is not considered to be a carcinogen by IARC, ACGIH, NTP, or OSHA.

**OSHA Specifically Regulated Substances (29 CFR 1910.1001-1050)**

Not listed.

**Reproductive toxicity**

This product is not expected to cause reproductive or developmental effects.

**Specific target organ toxicity - single exposure**

Not classified.

**Specific target organ toxicity - repeated exposure**

Not classified.

**Aspiration hazard**

Not an aspiration hazard.

**12. Ecological information****Ecotoxicity**

Toxic to aquatic life with long lasting effects.

| Components                                                    |      | Species                        | Test Results           |
|---------------------------------------------------------------|------|--------------------------------|------------------------|
| 1-dodecanaminium, n,n,n-trimethyl-, Chloride (CAS 112-00-5)   |      |                                |                        |

|                                                               | NOEC | Daphnia                        | 0.0042 mg/l, 21 d      |
| Fish                                                          | LC50 | Fish                           | 0.28 mg/l, 96 h        |
|                                                               |      |                                | 0.0322 mg/l, 28 d      |
| <i>Acute</i>                                                  |      |                                |                        |
| Fish                                                          | LC50 | Bluegill (Lepomis macrochirus) | 0.515 mg/l             |
| <i>Chronic</i>                                                |      |                                |                        |
| Crustacea                                                     | NOEL | Daphnia                        | 0.0042 mg/l            |

• Estimates for product may be based on additional component data not shown.

**Persistence and degradability**

No data is available on the degradability of this product.

**Bioaccumulative potential**

**Partition coefficient n-octanol / water (log Kow)**

1-hexadecanaminium, n,n,n-trimethyl-, Chloride 3.23

**Mobility in soil** No data available.**Other adverse effects** No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.**13. Disposal considerations****Disposal instructions** Collect and reclaim or dispose in sealed containers at licensed waste disposal site. Do not allow this material to drain into sewers/water supplies. Do not contaminate ponds, waterways or ditches with chemical or used container. Dispose of contents/container in accordance with local/regional/national/international regulations.**Local disposal regulations** Dispose in accordance with all applicable regulations.**Hazardous waste code** The waste code should be assigned in discussion between the user, the producer and the waste disposal company.**Waste from residues / unused products** Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).**Contaminated packaging** Since emptied containers may retain product residue, follow label warnings even after container is emptied. Empty containers should be taken to an approved waste handling site for recycling or disposal.**14. Transport information****DOT**  
Not regulated as dangerous goods.**IATA**  
Not regulated as dangerous goods.**IMDG**  
Not regulated as dangerous goods.**Transport in bulk according to Annex II of MAAPOL 73/78 and the IBC Code** Not established.**15. Regulatory information****US federal regulations** This product is a "Hazardous Chemical" as defined by the OSHA Hazard Communication Standard, 29 CFR 1910.1200.  
One or more components are not listed on TSCA.**TSCA Section 12(b) Export Notification (40 CFR 707, Subpt. D)**

Not regulated.

**CERCLA Hazardous Substance List (40 CFR 302.4)**

Not listed.

**SARA 304 Emergency release notification**

Not regulated.

**OSHA Specifically Regulated Substances (29 CFR 1910.1001-1050)**

Not listed.

**Superfund Amendments and Reauthorization Act of 1986 (SARA)****Hazard categories**  
Immediate Hazard - Yes  
Delayed Hazard - No  
Fire Hazard - No  
Pressure Hazard - No  
Reactivity Hazard - No**SARA 302 Extremely hazardous substance**

Not listed.

**SARA 311/312 Hazardous chemical** No**SARA 313 (TRI reporting)**  
Not regulated.

## Other federal regulations

### Clean Air Act (CAA) Section 112 Hazardous Air Pollutants (HAPs) List

Not regulated.

### Clean Air Act (CAA) Section 112(r) Accidental Release Prevention (40 CFR 68.130)

Not regulated.

### Safe Drinking Water Act (SOWA)

Not regulated.

## US state regulations

### US. California Controlled Substances. CA Department of Justice (California Health and Safety Code Section 11100)

Not listed.

### US. Massachusetts RTK - Substance List

Not regulated.

### US. New Jersey Worker and Community Right-to-Know Act

Not listed.

### US. Pennsylvania Worker and Community Right-to-Know Law

Not listed.

### US. Rhode Island RTK

Not regulated.

## International Inventories

| Country(s) or region        | Inventory name                                                         | On inventory (yes/no) |
|-----------------------------|------------------------------------------------------------------------|-----------------------|
| Australia                   | Australian Inventory of Chemical Substances (AICS)                     | Yes                   |
| Canada                      | Domestic Substances List (DSL)                                         | Yes                   |
| Canada                      | Non-Domestic Substances List (NDSL)                                    | No                    |
| China                       | Inventory of Existing Chemical Substances in China (IECSC)             | Yes                   |
| Europe                      | European Inventory of Existing Commercial Chemical Substances (EINECS) | No                    |
| Europe                      | European List of Notified Chemical Substances (ELINCS)                 | No                    |
| Japan                       | Inventory of Existing and New Chemical Substances (ENCS)               | No                    |
| Korea                       | Existing Chemicals List (EGL)                                          | Yes                   |
| New Zealand                 | New Zealand Inventory                                                  | Yes                   |
| Philippines                 | Philippine Inventory of Chemicals and Chemical Substances (PIGGS)      | Yes                   |
| United States & Puerto Rico | Toxic Substances Control Act (TSCA) Inventory                          | No                    |

'A "Yes" indicates that all components of this product comply with the inventory requirements administered by the governing country(s)  
A "No" indicates that one or more components of the product are not listed or exempt from listing on the inventory administered by the governing country(s).
