

Fogmaster® jr

A smaller fogger for the smaller jobs –
disinfecting.

1

11040 Bollinger Canyon Rd Ste.# I San Ramon, CA 94583

The Fogmaster Corporation is proud to announce the newest member of our family of fogging machines, *Fogmaster jr™*. Constructed of corrosion resistant materials, it is designed for jobs where a smaller and less expensive fogging machine is desired.

Applications

Key markets are **ODOR CONTROL** of hotels, autos, beauty - nail salons, restaurants, restrooms, nursing homes, schools and churches. Market this machine with your chemical deodorant regardless of type: masking, enzymic, bacterial, or chemical counteractant. Cold fogging works with all oil- or water-based chemicals.

The *Fogmaster jr™* can also be used with pesticides, sanitizers, plain water (mist plants) or deodorants, as well as for aroma therapy. Its a great marketing tool for chemical sales demonstrations.

Safety Instructions

Read all safety instructions and warnings in its entirety. Failure to do so may result in fire, electric shock, and or serious injury.

	<p>Please keep away from children! Hot tip from the fogger, can severely burn a child.</p>
	<p>Do Not Use Fogger if:</p> <ul style="list-style-type: none"> • Noticeable damage, dents, melted case, or protrusions on Fogger exist. • Missing parts are seen on the Fogger. • Loud grinding noise when powered on. • The fan stops suddenly. • The fan noise changes significantly. <p>If any of the above situations exist, please stop use immediately, and return for service.</p>
	<p>Never use Fogger by pools of liquids, or in the rain, to prevent possible electric shock, or fires.</p>
	<p>Do not use Fogger with flammable liquids or corrosive materials. Doing so can cause physical harm or damage to your unit.</p>

Keep the Fogger away from highly flammable chemicals, or extreme temperatures.

Do not disassemble the Fogger, doing so can cause harm to you and the Fogger, voiding your warranty.

Included in the Box

1. Mini Trigger Controlled Fogger
2. Manual

CE

Preparation Instructions:

- Always keep the Fogger upright when liquid is in the unit. Failing to do so can cause liquid to reach the motor causing failure to the unit.
- Never overfill the Disinfectant reservoir, always keep at least 1" below the top of the reservoir.
- During usage, the reservoir should be tightened enough to allow pressure to build up while using the Fogger.
- Please insure no impurities are found in the disinfectant as this can cause clogging to the unit causing it to stop functioning.
- Please make sure the tip is lined up with the arrow.

Usage Instructions:

- Always keep the Fogger upright when liquid is in the unit. Failing to do so can cause liquid to reach the motor causing failure to the unit.
- Point unit at target and pull trigger to begin spraying of disinfectant. Please allow enough time for pressure to build.
- After enough pressure is built into the system the disinfectant will begin to leave the Fogger.
- After use, unscrew the reservoir to relieve the pressure from the reservoir.
- After usage please clean the unit by placing clean water in the disinfectant reservoir and turning on the Fogger, allowing the water to purge the unit of any disinfectant for 2 minutes.

USER MAINTENANCE INSTRUCTIONS

We recommend that the machine be returned to an authorized Distributor or Service Center for repairs. However, users may undertake maintenance if they wish. The Instruction Manual contains information on common repair procedures.

DANGER - RISK OF ELECTRIC SHOCK. Remove electrical plug from outlet before attempting any service. Do not unplug by pulling on cord. To unplug, grasp the plug, not the cord.
